Dear City Council members,

I am a Cambridge resident since 1970, and a supporter of human rights for Palestinians as well as for Israelis. I have visited both Israel and Palestine. My relatives in Israel deserve to be safe, and Palestinians deserve an end to the occupation. The safety of the one doesn't justify (or require) the oppression of the other.

Therefore, I ask the city council to direct the city of Cambridge not to buy from HP or its related companies as long as it continues supporting, or profiting from, the occupation of the West Bank or the siege of Gaza.

Sincerely,
Dr Richard Stallman
